Q5: We're interested to get your perspectives on whether you've noticed any change in children's behaviour this year (2022).

Q5: We're interested to get your perspectives on whether you've noticed any change in children's behaviour this year (2022). Even if you didn't mention the following as the main concerns for the children at your school, for each of the issues listed, have you noticed whether the children's behaviour has generally improved, got worse or there has been no change, or it's never been a concern?

Children's behaviours that have got Worse	Nb of Responses	% of Responses
Socialisation with peers	39	39%
Too much unproductive screen time (i.e. streaming, gaming)	48	48%
Lack of physical activity	24	24%
Mental wellbeing (i.e. showing signs/expressing feelings of anxiety or depression)	68	69%
Concerns relating to neurodiversity (i.e. managing dyslexia, ADHD, Autism etc.)	40	40%
Lack of engagement in curricular activities (i.e. due to inconsistency in the classroom)	17	17%
Reduction in academic performance (i.e. reading, writing, spelling, numeracy/math)	15	15%
Significant changes in their emotional patterns (i.e. more easily overwhelmed, increased sensitivity)	61	62%
Poor communication skills (i.e. avoiding eye contact, cannot read social cues)	21	21%
Poor eating habits (i.e. desire for more unhealthy food, poor timing of eating, emotional eating)	12	12%
Lack of motivation to do schoolwork	18	18%
Poor hygiene	6	6%

Q6: Which, if any, of the following supports do you believe the children at your school need to help them thrive?

Q6: Which, if any, of the following supports do you believe the children at your school need to help them thrive? Please select all that apply

Select all that apply (9 options)	Nb of Responses	% of Responses
Access to mental wellbeing experts (i.e. Psychologists/Counselling/therapy support)	80	82%
Socialisation opportunities (i.e. before/after school care, organised play dates, attend community events, etc.)	58	59%
Extra-curricular activities (i.e. sports, drama, arts, etc.)	54	55%
Access to professionals (i.e. dieticians, paediatricians)	53	54%
Access to mindfulness practices and experts on wellbeing in children	53	54%
More academic-focused activities (i.e. extension maths, gifted-and-talented activities and tutoring)	40	41%
Something else (please specify)	3	3%
None of the above	1	1%
Don't know	0	0%
